Motivated Mechanical Engineering student at UCF with hands-on experience in 3D modeling, design, FEA, and prototyping, with a unique background in professional stage performance. Collaborative, detail-oriented, and eager to contribute to any team.

WORK EXPERIENCE

Andor Health - Intern

SUMMER 2026

- Drafted and submitted Rural Health Transformation (RHT) grant applications, helping secure funding opportunities to support healthcare in underserved communities.

- Collaborated cross-functionally and attended daily standups to stay aligned on project goals and deliverables.

Best Buy - Sales Advisor

2024 - 2025

- Provided attentive, knowledgeable customer service by advising on consumer electronics, appliances, and technology solutions.

- Assisted customers in selecting the right products based on their needs, ensuring a clear understanding of product features and benefits.

- Collaborated with team members to meet sales targets and adapt to rapid changes in product offerings.

The Ballet School Performing Arts - Teacher/Assistant

2023 - 2024

- Taught various dance styles to students of all ages while designing engaging curriculum and choreography.

- Collaborated with fellow instructors to foster a positive and safe learning environment.

EDUCATION

University of Central Florida - Mechanical Engineering

FALL 2025 ~ SPRING 2028 - GPA ~ 3.415

EXTRACURRICULARS

Social Media/Historian Officer of ASME UCF Chapter

ENGINEERING SKILLS

- AutoCAD and Fusion Modeling.

- Prototyping using Additive Manufacturing.

- Mechanical Design & Finite Element Analysis (FEA).

COLLABORATION & PROFESSIONAL SKILLS

- Teamwork in Technical & Creative Spaces.

- Adaptability & Problem-Solving in Fast-Paced Environments.

- Microsoft Office Suite Proficiency.

- Basic coding skills in C and Python.

PROJECTS

Scaled Automotive Vehicle (IP) - Designing Scaled remote control vehicle for competition between ASME and Theta Tau. Working in the chassis subsystem.

Arcade Claw Machine (ASME) - Working in Game Systems team to build software and hardware game mechanics.
